

ASSIGNMENT II
ADVANCED PROGRAMMING
NAME-BHITALI BORUAH
ROLLNO-CSB24045

Write a Java program using ArrayList to store book titles. Add at least 5 books and search for books whose title contains a given word

```
import java.util.ArrayList;
import java.util.Scanner;

public class BookSearch
{
    public static void main(String[] args)
    {
        ArrayList<String> books = new ArrayList<String>();

        books.add("Parallel hearts");
        books.add("Letters I never sent");
        books.add("A season we couldn't keep ");
        books.add("After the last train home");
        books.add("In another lifetime, maybe");

        Scanner sc = new Scanner(System.in);
```

```
System.out.print("Enter a word to search in book titles: ");

String word = sc.nextLine();

System.out.println("\nBooks containing the word \"" + word + "\":");

boolean found = false;

for(String title : books)
{
    if(title.toLowerCase().contains(word.toLowerCase()))
    {
        System.out.println(title);
        found = true;
    }
}

if(!found)
{
    System.out.println("No book found with that word.");
}

sc.close();
}
}
```

OUTPUT

Enter a word to search in book titles: L

Books containing the word "L":

Parallel hearts

Letters I never sent

A season we couldn't keep

After the last train home

In another lifetime, maybe
