

ASSIGNEMENT IV
ADVANCED PROGRAMMING

NAME-BHITALI BORUAH

ROLLNO-CSB24045

Create a Python program using a list and dictionary to store products with name and stock quantity.

Display all products whose stock is less than 10

```
# Creating a list of products
```

```
products = [  
    {"name": "Notebook", "stock": 15},  
    {"name": "Pen", "stock": 8},  
    {"name": "Pencil", "stock": 5},  
    {"name": "Eraser", "stock": 12},  
    {"name": "Marker", "stock": 3}  
]
```

```
print("Products with stock less than 10:\n")
```

```
for product in products:
```

```
    if product["stock"] < 10:  
        print("Product Name:", product["name"])  
        print("Stock Quantity:", product["stock"])  
        print("-----")
```

OUTPUT

Products with stock less than 10:

Product Name: Pen

Stock Quantity: 8

Product Name: Pencil

Stock Quantity: 5

Product Name: Marker

Stock Quantity: 3
