ASSSIGNMENT-5

Q Create a simple React component that maintains a list of todos using useState. Allow the user to add a todo and display all added todos on the screen.

```
import React, { useState } from "react";
```

```
function TodoApp() {  
  const [todos, setTodos] = useState([]);  
  const [input, setInput] = useState("");
```

```
  const addTodo = () => {  
    if (input.trim() === "") return;
```

```
    setTodos([...todos, input]);  
    setInput("");
```

```
};
```

```
return (
```

```
  <div>
```

```
    <h2>Todo List</h2>
```

```
    <input
```

```
      type="text"
```

```
      value={input}
```

```
      onChange={(e) => setInput(e.target.value)}
```

```
      placeholder="Enter a todo"
```

```
    />
```

```
    <button onClick={addTodo}>Add Todo</button>
```

```
    <ul>
```

```
      {todos.map((todo, index) => (
```

```
        <li key={index}>{todo}</li>
```

```
      )}}
```

```
    </ul>
```

```
  </div>
```

```
);
```

```
}
```

```
export default TodoApp;
```

OUTPUT

Todo List
